Monthly insight

Tomáš Káhal
Penta Fund

In June, the value of all classes of investment shares in the sub-fund increased. This was thanks to the quarterly revaluation of real estate in the Penta Real Estate Holding Limited portfolio. This revaluation reflects the continued growth of key projects and stable development in the real estate market.

In the residential segment, a new phase of apartment sales began in the Mocca Residence project in Prague's Vysočany district.

At the Nusle Brewery, a passageway and footbridge were handed over to the public, further opening up the project and strengthening its community function.

In Slovakia, the next phase of sales began for the Bory Byvanie project, which has long been one of the most successful residential developments in Bratislava, were launched. Simultaneously, the next phase of the project began, which will add another 180 apartments to the district. This phase is called Bory Nádvorie. In the office segment, construction of the Chalupkova Offices project progressed to the above-ground floor phase.

As of June 30, 2025, the value of the sub-fund's assets is EUR 511.8 million.

Southbank

A new project of global proportions will be created in Bratislava. The southern embankment will become a prized extension of the city centre on the opposite bank of the river. Its wide scope aims to create an attractive and pleasant place for living, working and spending free time. The creation of a compact mixed-use riverside city is considered a strategic part of the city's development plans. After many fallow years, the Danube's southern bank will be rejuvenated with numerous new functions for all Bratislava residents. The project will deliver 900 apartments and over 85,000m² of rentable office and commercial space, a variety of civic amenities, and a direct connection to the riverside.
