Penta Fund

Welcome to the first factsheet of the Penta Equity sub-fund. During the subscription period, the Penta Group contributed a 10% stake in Penta Investments Limited to the sub-fund, valued at over EUR 440 million as of 31 December 2024. These shares were contributed at their year-end valuation, allowing external investors to benefit from the subsequent appreciation in their value. In addition, the fund raised EUR 267.9 million from external investors, which was used to acquire newly issued shares of the holding.

**As of 31 March 2025, the total NAV of the sub-fund exceeded EUR 735.9 million.**

The year 2024 was a record year for Penta – the group's net asset value surpassed EUR 4.4 billion and net profit reached EUR 621 million. This positive trend continued into the first quarter of 2025, resulting in appreciation across all investment share classes of the sub-fund.

In 2025, Penta strengthened its position in social services by acquiring 17 facilities SeneCura. Dr. Max recorded stable revenue and profitability growth, driven particularly by strong performance in Romania and the Czech Republic. Negotiations are also underway for the acquisition of more than 100 pharmacies across various countries.

Due to the widening of interest rate differentials between the euro and the Czech koruna in Q1 2025, there was a temporary accounting revaluation of hedging operations, which had a slightly negative impact on the CZK-denominated investment share classes. However, this effect is gradually being neutralized. The issuance of investment shares in the sub-fund continues on a monthly basis.
